Citizenship: USA and France

TEACHING EXPERIENCE	Teaching Assistant at UCLA 132 Complex Analysis for Applications (Sp19) 134 Nonlinear Systems of Differential Equations (W19, F19, Sp20, F20) 135 Ordinary Differential Equations (F19) 146 Variational Calculus and Optimal Control (W20) 151A Applied Numerical Methods (F18, F20) 151B Applied Numerical Methods (Su19)	Sep 2018 – Present
EDUCATION	University of California, Los Angeles Ph.D. Program in Mathematics • Advisors: Rowan Killip and Monica Visan • Research interest: dispersive partial differential equations University of Michigan B.S. in Mathematics and Physics • Graduated with high distinction, honors in physics, and high honors in mathematics • Physics thesis: <i>Topics in Quantum Field Theory in Curved Spacetime: Unruh Effect, Hawking Radiation, and AdS/CFT</i>, advised by Leopoldo Pando Zayas	Sep 2018 – Present Sep 2014 – Apr 2018
CONFERENCES ATTENDED	<i>Introductory Workshop: Microlocal Analysis</i> , MSRI	Sep 2019
AWARDS AND HONORS	<i>Wilfred Kaplan Award in Applied Mathematics</i> Selected by faculty for excellence in applied mathematics <i>Michigan Marching Band Scholarship</i> Selected by faculty for demonstrating strong leadership abilities <i>Sophomore Honors Award with Distinction</i> Fulfilled the honors college requirements	Spring 2017 Fall 2017 Fall 2017
WORK EXPERIENCE	Prescient Models LLC Research engineer • Designed a research approach to explore the prospect of interstellar travel through gravitational assist via near-Sun chaotic trajectories of binary objects. • Tailored C-language software to automate gravitational scattering simulations to estimate the probability and stability of successful trajectories. • Employer: Dr. Joseph L. Breeden (email: breeden@prescientmodels.com) University of Michigan Mathematics department tutor • Harnessed listening skills to effectively determine students' misunderstandings. • Leveraged teaching skills to empower students to lead themselves to a solution by encouraging them to think critically.	May 2016 – Aug 2017 Sep 2015 – Dec 2015
